

CANNES BUS FRIENDLY

"Welcoming sustainably the World! "

The quality of life and infrastructure in Cannes make it a major destination for both business and leisure travelers. Every year, around 600 coaches serve the hotels in Cannes and more than 1,500 coaches take cruise ship passengers on excursions. In order to preserve this attractiveness, its natural setting and the quality of life of residents and tourists alike, Cannes Town Hall wishes to involve coach operators in a virtuous ecological circle by implementing strong environmental measures.

This charter, which will apply to all coach operators serving the destination, defines a set of commitments to help protect the environment while improving services to the destination.

CANNES CHARTER COMMITMENTS

Improve the environmental performance of vehicles & respect the Cannes environment:

• Coach operators serving Cannes undertake:

- To stop using EURO IV or lower standard coaches from 31 October 2023,
- To give priority to the use of EURO VI or low-emission (CNG, electric, hydrogen, etc.) coaches on services to Cannes, and to stop using EURO V coaches from 31 October 2024,
- To switch off the engines of vehicles when stationary and to ensure that the air conditioning is only switched on when customers board,
- Put their Crit'Air sticker to the windscreen of their vehicle.

Define & communicate the main access to the city by bus, coach parking, pick up & drop off areas:

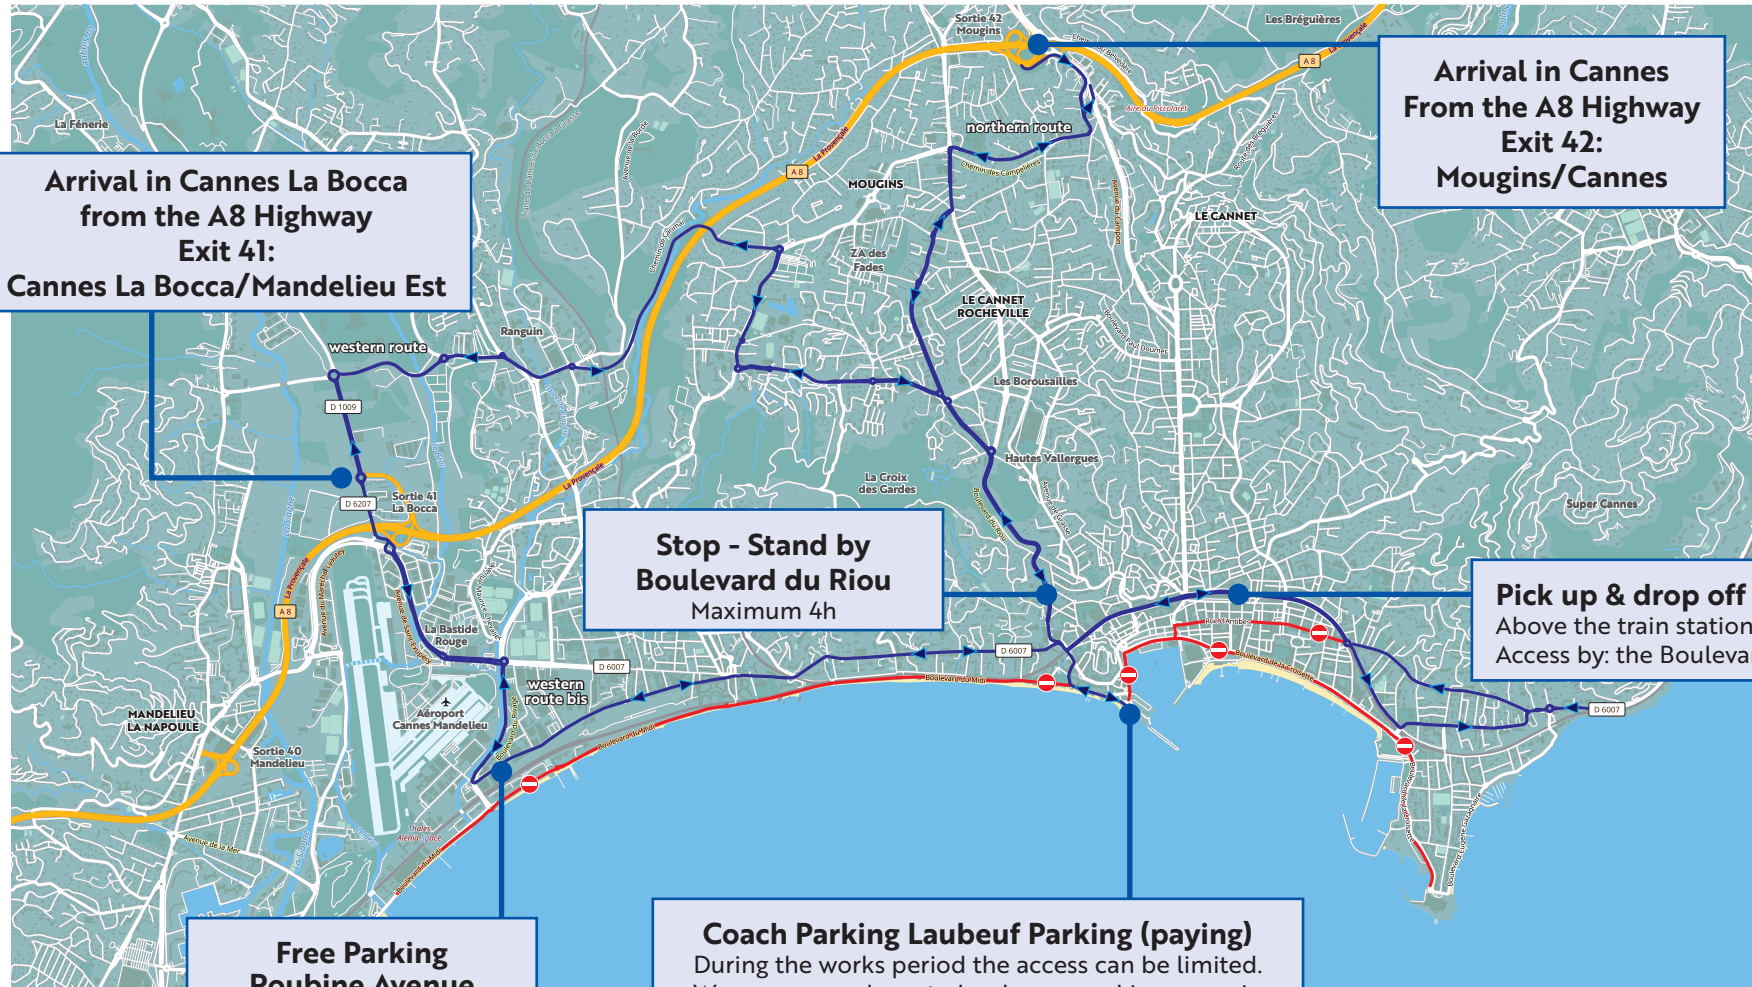

• City of Cannes undertakes:

- To define a traffic pattern specifying the preferred routes for coaches entering and leaving the town & parking and stopping arrangements,
- To Communicate the location of coach parking spaces and drop-off points in Cannes, as well as their operation (parking rates).

• Coach operators undertake:

- Not to stop or park their vehicles outside duly authorized areas.
